

Power Supply Module

Features:

- VITA-46 based Double-slot 6U Conduction cooled
- Operating on 115VAC 400Hz aircraft power & 28VDC backup power
- Multiple-output (3.3V DC, 5V DC, 12V DC), generate up to 300 watts
- Low Output ripple
- Internal Holdup 30ms
- Independently regulated, isolated outputs with internal LED status indicators
- Reverse polarity protection for DC inputs
- Under voltage and Over voltage protection
